With the ever increasing competition everywhere, thinking about Co-operation and Conducive environment in any industry is a bygone, however due to the formation of Hospitality Industry of India and ACOHI Board; it seems **“SABKA SAATH SABKA VIKAS”** is already in progress. The bond and trust amongst our industry people is growing, and now it has become a common practice to say WE rather than ME in all our industry gatherings. This positive shift will provide tailwind and act as a catalyst for the golden days which awaits our industry.

Indian cuisine reflects an 8000 year history of various groups and culture and to have a deep understanding, our industry has got associated with **“Vikramashila University”** one of the oldest Hindi universities in the world and three most important Buddhist monasteries in India during the Pala Empire, along with Nalanda and Odantapur, **“Deccan College Post Graduate & Research Institute Public Deemed University”**, **“Chhatrapati Shivaji Maharaj Lok Vidyapeeth”** and **“Mahatma Phule Krishi**

Vidyapeeth – Rahuri”. The ever growing associations within and outside makes me believe that the golden days waits for our industry and our industry will be known as “SONE KE CHIDIYA” soon.

With the ongoing and continuous positive news pouring in from across globe for our hospitality industry, I personally feel more excited, joyous and positive within. The creator of this organizational behemoth Mr Sanee Awsarmel with his sheer hard work of close to 25 years, dedication, positive approach, never give up attitude, planning, execution and excellent PR (the list will go on and on) is solely to be credited for bringing in the following revolutionary change

Looking at the Pace & Size with how our industry is on the upward growth trajectory, I sometimes regret leaving the industry to pursue my career elsewhere. I personally feel excited about the future of our industry, knowing that the person behind this positive change, Mr Sanee Awsarmel is hungry to achieve more for his industry. His appetite for doing more for his industry leaves me mesmerized and is truly commendable. This hard work, dedication and sincerity of his are eventually benefitting all of the industry people.

Knowing Sanee of 1995 who use to sit on floor for his meals to Sanee of 2022, who sits with WHO’S WHO of all industry, it’s a remarkable achievement. However behind the scene is immense hard work, sacrifice, dedication and discipline. Albeit of his status, he has still remained the same old humorous, helpful and friendly gentleman. With the growing hunger and vigour in him towards development of our industry, I’m sure he will reach the pinnacle soon.

Thank you Mr Sanee Awsarmel for being a friend, Guide and a go to man for any suggestions.

I consider our industry blessed to have a figure like you aka “SACHIN TENDULKAR” of our Hospitality Industry. Looking at your dedication and hunger for innovation and excellence, I personally get motivated.

All the best to you for your future endeavour!!!!!!
